Hmm good question - I am not sure how that got released without, but I expect we will be getting questions still from GSENM and adding some additional pieces here and there. I will follow-up.

Good Catch!

Thanks Tim. Listening session went well, with about 25 people and 6 tribal leaders speaking. There was a general frustration with protocol for true tribal consultation, but strong support for Monuments, particularly Bears Ears.

I did have a question on the final data for GSENM. (b) (5) DPP

Hi Cindy

Hope all is well and the listen session goes well today.

I know you finished the big lift for the Monument Review Data call, but might be useful to review, upload and add some information to the report if prudent.
